## EDUCATION

---

01/2024

Computer Science - Computer Science

Binus University  
Malang, Indonesia

To re-learn the basics and got through many theories from the foundation that I lack so I began to understand more of why than how in programming decisions.

05/2018

High School Diploma

Telkom Private Vocational High School  
Malang

Introduced to multiple programming languages, be it: web, desktop, and mobile. Understanding the foundation of programming from creating mindset to revolve around critical thinking with problem solving approach towards not just at programming, but also daily

## SUMMARY

---

Frontend Developer with nearly 6 years of experience in creating user-centric web applications that prioritize accessibility and performance. Proven ability to develop responsive websites optimized for SEO and aligned with modern web standards. Committed to driving innovation and enhancing usability through contributions to open-source projects.

## SKILLS

---

- ReactJS
- NextJS
- TypeScript
- Redux
- Javascript
- HTML
- CSS
- Git
- Agile methodology
- Frontend development
- Code optimization
- Cross-browser compatibility
- React.js integration
- Performance testing
- Bug resolution
- Technical documentation

## EXPERIENCE

---

Digital Financing & Payment Platform Manager  
PT. Maybank Indonesia, Tbk | Jakarta, Indonesia

04/2024 - Current

- Led the creation of user interfaces tailored to align with both user requirements and company objectives in an Agile framework.
